ACT Peer Work Group: The Power of Language

Building on the momentum from our successful ACT Peer Scope of Practice development initiative, we are bringing together a team composed of working peer specialists and recovery leaders from across the state to look at the potential of peer voices and strategies in positively impacting the clinical practice and environment on ACT Teams.

Starting from the understanding that peer workers on ACT Teams are explicitly not clinicians, this work group will review current documentation practices, determine if person center treatment planning is currently occurring on teams, and suggest ways that peer workers might uniquely contribute to writing outside of a traditional clinical framework. By the end of our work group we hope to have solicited new language and perspectives which will help us in developing guidelines and training strategies to clarify the Peer role for ACT Teams in New York State.

If you are interested in participating in our group please respond directly to this email. Our next call will take place on Tuesday 11/13/18 from 11am-12pm. This is the second of three, bimonthly calls in the series.
The next call will be held on
