Dear ACT Providers,

We are pleased to announce the Assertive Community Treatment Updated Staff Training Requirements, now located in the LMS.

Please review the ACT Training Memo from NYS Office of Mental Health (OMH), Bureau of Rehabilitation Support Services regarding the updates and how they affect your team’s training status.

The ACT Institute Curriculum Training Guide provides a more in-depth overview of the new ACT Training curriculum, including requirements for newly hired ACT Providers.

We ask all ACT Providers to update their ACT Primary Role, using the instructions provided here, to ensure accurate reporting for Role-Based trainings.

Please refer to the ACT Institute Training Curriculum Update: FAQ if you have any questions.
Please contact The ACT Institute at ACT_inst@columbia.edu for any other questions you may have.
